AN INDIAN ENTERPRISE

Varada Nexus *Private Limited.*

A multi-sector company bringing design intelligence, engineering discipline, and accountable execution together. Across every engagement, we build with clarity, operate with rigour, and remain responsible for the outcome from first conversation to final delivery.

DESIGN · BUILD · DELIVER

**Made for the way India lives
and works.**

01

Design Intelligence

Thoughtful planning shaped around people, purpose, and context.

02

Engineering Discipline

Clear specifications, rigorous coordination, and buildable detail.

03

Accountable Delivery

One coordinated team responsible from concept through handover.

OUR SPECIALIST DIVISION

Interior Design & Architecture

Architecture-led planning, bespoke interiors, turnkey execution, furnishing, and aftercare — delivered through one coordinated team.

From first sketch to final handover, this brochure outlines how Varada Nexus approaches complete interior environments with design clarity, transparent coordination, and execution discipline.

One team, from blueprint to *handover*.

Varada Nexus Interiors designs and executes complete spaces under one roof — architecture-led planning, bespoke joinery, curated materials, lighting, and furnishing. You work with a single accountable partner from the first sketch to the final walkthrough, with no handoffs between designer and contractor. Rooted in Indian craft and context, delivered to an international standard, every project is drawn around how the space will truly be lived in and used.

4 SECTORS SERVED	1 POINT OF CONTACT	360° DESIGN TO DELIVERY	100% TURNKEY HANDOVER
--	--	---	---

Rooted in craft, *built to last.*

Context First

We design for climate, light, and the way Indian homes and workplaces are actually used — not imported templates.

Honest Materials

Sheesham and teak, stone, brass, and handloom textile — natural finishes that age with grace rather than date quickly.

Light as Architecture

Layered, mood-driven lighting treated as a core design element, engineered into every room from the outset.

Engineered to Endure

Specifications that hold and detailing that survives daily life — beauty backed by build quality.

Four worlds, *one standard.*

Residential & Luxury

Villas, penthouses, and apartments finished to a bespoke standard — custom joinery, curated materials, and lighting designed around how you live.

VILLAS · APARTMENTS · PENTHOUSES

Commercial & Office

Workspaces, showrooms, retail, and hospitality that reflect your brand and work hard — planning that balances presence with productivity.

OFFICES · RETAIL · HOSPITALITY

Hospital & Healthcare

Clinical fit-outs built to standard — reception, consultation suites, wards, and theatres designed for hygiene, workflow, and calm.

CLINICS · WARDS · THEATRES

Turnkey & Full-Service

Design, execution, and furnishing delivered end to end — a single contract, a single point of accountability, and a move-in-ready space.

DESIGN · BUILD · FURNISH

Designed to the *last detail.*

Contemporary façade

A home, *reimagined.*

The brief. A representative four-bedroom apartment engagement, beginning as a bare shell and envisioned as a warm, contemporary family home — open, light-filled, and clutter-free, with clever storage throughout.

The result. We opened up the living and dining, introduced a floating staircase and layered lighting, and worked in walnut veneer, marble, and handloom textiles for warmth. Every fitting — from the modular kitchen to the wardrobes — was custom-built and installed by our own team, and handed over move-in ready.

What we *deliver.*

01 Concept & Space Planning Layouts, zoning, and 3D concepts tailored to how the space will be used.	02 Architecture & Layout Structure-aware planning, elevations, and civil coordination.	03 Bespoke Joinery Custom furniture, wardrobes, and millwork built to measure.
04 Materials & Finishes Curated palettes of stone, wood, textile, and metal.	05 Lighting Design Layered, mood-driven lighting engineered into every room.	06 Modular Kitchens & Wardrobes Ergonomic, hard-wearing systems tailored to Indian kitchens.
07 False Ceiling & POP Ceiling design, cove lighting, and detailing done in-house.	08 Execution & Project Management Contractors, timelines, and quality control managed for you.	09 Furnishing & Styling Final styling, art, and décor for a complete handover.

Every capability sits under one roof and one contract — you are never left coordinating between an architect, a carpenter, an electrician, and a decorator.

How we *work*.

1

Discovery

We understand your brief, site, lifestyle or brand, and budget through an on-site survey and consultation.

YOU RECEIVE

Site survey · requirement brief · indicative budget band

2

Design

Concepts, layouts, 3D visuals, material boards, and a detailed cost estimate — refined with you until approved.

YOU RECEIVE

Floor plans · 3D renders · material palette · costing

3

Build

Bespoke joinery, civil, electrical, and finishing executed with dedicated on-site project management.

YOU RECEIVE

Weekly progress · quality checks · timeline tracking

4

Furnish & Style

Loose furniture, soft furnishings, lighting, art, and décor installed and styled to the final vision.

YOU RECEIVE

Styled interior · fixtures · finishing touches

5

Handover

Snagging, cleaning, and a walkthrough — you receive a functioning, move-in-ready space with warranties.

YOU RECEIVE

Snag-free handover · warranties · aftercare

Your Client Portal

INCLUDED

Every client receives secure access to an online portal — review 3D designs and drawings, approve each stage, track progress and timelines, and sign off on the work from anywhere, at any time. Full transparency, no surprises.

Finishes that *age well*.

Engineered & Veneer Wood

Walnut and oak veneers for sleek, seamless modern joinery.

Large-Format Stone & Marble

Book-matched marble and porcelain for floors and feature walls.

Laminates & Acrylic Finishes

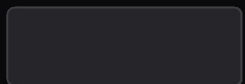

High-gloss and matte surfaces for contemporary cabinetry.

Metal, Glass & Mirror

Brushed brass, blackened steel, and slim-profile glazing.

Architectural Lighting

Recessed, linear, and cove lighting integrated by design.

Three ways to *work with us.*

MOST POPULAR

Essential

Smart, well-built interiors on a considered budget

Tailored quote

- Space planning & 2D layouts
- Core modular units & wardrobes
- Standard finishes & laminates
- Basic lighting & false ceiling
- Project management & handover

Signature

Bespoke design with premium materials

Tailored quote

- Everything in Essential
- 3D design & material boards
- Custom joinery & veneers
- Layered, engineered lighting
- Curated furnishing & styling
- Client portal & live approvals

Bespoke

Fully custom, luxury turnkey delivery

Tailored quote

- Everything in Signature
- Architecture & layout redesign
- Imported stone, brass & automation
- Bespoke furniture & art curation
- Dedicated design lead
- Extended warranty & aftercare

Every project is custom-scoped. Pricing is tailored to your space, materials, and requirements — and confirmed after a site survey and detailed scope of work.

Everything under *one roof*.

Modular Kitchens

Ergonomic, hard-wearing kitchens built for Indian cooking.

Wardrobes & Storage

Fitted wardrobes, walk-ins, and clever concealed storage.

Home Automation

Smart lighting, climate, security, and voice control.

False Ceiling & Lighting

Ceiling design, cove and profile lighting, in-house.

Landscaping & Balcony

Green balconies, planters, and outdoor living spaces.

Furniture & Décor

Custom and curated furniture, art, and finishing touches.

Frequently *asked.*

Q. How long does a project take?

A full home fit-out typically takes 10–14 weeks from design sign-off, depending on size and scope. We share a committed timeline before work begins.

Q. How is payment structured?

Payments are staged against milestones — design, execution, and handover — with clear, tailored estimates agreed upfront before any work begins.

Q. Do you handle everything, or just design?

Everything. Design, civil work, joinery, electrical, furnishing, and styling are delivered under one contract and one point of contact.

Q. Can I track progress?

Yes — every client gets secure portal access to view 3D designs, approve each stage, and follow progress and timelines from anywhere.

Q. Will you work with my architect?

Absolutely. We collaborate with your architect or work from your existing plans, and can also handle layout design ourselves.

Q. Is the work under warranty?

Yes. Our workmanship is warranty-backed, with responsive aftercare long after the keys are handed over.

Design that is also *engineered*.

*“Interiors sit inside a group that builds and operates real infrastructure — so our specifications **hold**, our timelines are **met**, and our finishes **last**.”*

One Partner, Full Accountability

No handoffs between designer and contractor. We own the outcome end to end — the space you were shown is the space you receive.

Engineering Discipline

The rigour of a group that runs hospitals and logistics, applied to every drawing, material spec, and site review.

Curated, Not Catalogued

Every palette is composed for the project — bespoke joinery and considered materials over off-the-shelf packages.

Transparent Costing

Clear estimates, staged payments, and no hidden extras — you always know where the budget stands.

Delivered Move-In Ready

Styling, snagging, and furnishing included, so handover means walking into a finished, functioning space.

Aftercare & Warranty

Workmanship warranties and responsive aftercare long after the keys are handed over.

INTERIOR DESIGN & ARCHITECTURE

Let's design your *next space.*

Tell us about your home, office, or facility — and we'll take it from concept to completion.
